

NOW YOU'RE TALKING!

VOLUNTEER WITH THE NSW SES

There's no better time to join us and connect with your community.

Are you an avid networker? Like to chat? Put your conversations to use and help prepare residents for catastrophic weather events. You'll be utilising your connections, relationships and local knowledge to engage with the community about local risks and how they can protect their households and property.

But wait, there's more! When we're operational you'll be working closely with communities to distribute emergency information, facilitate community meetings and work directly with affected residents to bring their concerns back to the NSW SES. We'll provide all the training you need – and utilise your existing experience.

Don't just talk about it - volunteer today!
